Higher speeds increase a driver's reaction time & braking distance

SPECIAL ASSESSMENT

Approved at May 14, 2025 Board of Directors Meeting

Dear Association Member:

PLEASE TAKE NOTICE that in accordance with Article IX of the Bylaws, the Board of Directors of Lake Barrington Community Homeowners Association has adopted a **Special Assessment** in the amount of **\$2,500,000.00**. The Special Assessment is for two purposes (1) repayment of the Association's capital reserve account used for the acquisition of the Golf Club; and (2) repayment of a portion of the line of credit used for funding operations for the Golf Club.

Each owner's share of the Special Assessment will be \$1,900.00. The Special Assessment, once adopted, commenced immediately. Owners have two (2) options for paying the Special Assessment:

- 1) payment of **\$1,900.00** in full on or before June 15, 2025. **YOU WILL NOT RECEIVE AN INVOICE FOR THIS OPTION.** Payments are to be made by check to Lake Barrington Shores, 64 Old Barn Road, Lake Barrington, IL 60010 or
- 2) finance the Special Assessment through the Association and pay the Special Assessment off in ten (10) installment payments in the amount of \$240.00 on or before July 1, 2025, payment of **\$240.00 on or before January 1, 2026, and annually on the 1st of each year thereafter, with the final payment on January 1, 2034.**

Owners who do not pay the full amount of the special assessment on or before June 15, 2025, **will be deemed to have chosen the installment payment Option (Option 2 above)**. Owners choosing this option will be charged a late fee in the amount of \$100.00 for each installment payment that is not paid within fifteen (15) days of the due date. Installments that are thirty (30) days delinquent shall receive a Notice of Delinquency and the Owner(s)' transponder shall be turned off. Installments that are sixty (60) days delinquent shall be turned over to the Association's counsel for collection.

In addition, in the event an Owner sells or otherwise conveys ownership of the Owner's Unit prior to paying off the full Special Assessment Amount, plus any finance fee for Owners choosing the finance option, then the full Special Assessment Amount (plus any finance fee) shall be due and payable before the sale or other conveyance of the Unit takes place, or in conjunction with the closing of sale.

COMED RATE INCREASE BEGINS JUNE 1ST

LBS/MC2 PROGRAM

Residents at LBS have an opportunity to pay substantially less than the ComEd rate on your monthly ComEd bill. The ComEd rate will increase to 10.2 cents/kWh beginning June 1st. Lake Barrington Shores residents on the LBS/MC2 program will pay a fixed rate of 6.95 cents/kWh (3.25 cents less/kWh than the ComEd rate to compare). Those with ComEd will have significantly higher bills all year (especially during the winter heating months). If your current ComEd bill shows you are with MC2 as the supplier and the rate is 6.95 cents/kWh, you are on the proper program. More than 50% of LBS residents are enrolled in this program.

COMMUNITY SOLAR PROGRAM

We have signed quite a few LBS residents up for the Community Solar Program. This program will offer credits on your ComEd bill (every month). This is another way to lower your ComEd bill. This program—part of the State of Illinois’ “Illinois Shines” initiative—supports clean energy by allowing participants to receive credits for electricity generated by solar farms across Northern Illinois. No rooftop panels are required. Once LBS residents sign up, they are placed on a waiting list, then assigned to a solar farm in IL. We have found that people are placed at solar farms (and begin to receive ComEd bill credits) in no particular order. Some LBS residents have been placed a couple months after signing up, some have waited a year to be placed. We have no control over when the ComEd bill credits begin to appear on ComEd bills. However, if you do not sign up for the program, you will never receive the credits on your ComEd bill.

LBS FISHING CLINIC

Today’s Kid’s Fishing Clinic was filled with 6 kids from age 4 to 10.

Everyone caught fish...many of them for the first time!

The parents and grandparents helped netting the fish after the kids hooked them.

Everyone had a great time.

Thanks to our “coaches” Pat Kelly, Pat Flynn, and Louis Yee in making this a success!

Community Corner

Yo Mama!

*This space is devoted to tips and info to help Mother Earth,
desperately in need of our TLC*

Chill out naturally. Can we reduce our reliance on air conditioning? Find ways to cut back all that use of electricity? Well, yes. Here's a few very simple but worthwhile ideas to keep in mind as outside temps increase.

Block sunlight.

The US Dept of energy estimates that over 75% of the rays that hit your windows become heat. Yes, we all love to look out at the beautiful views we have around here, but keeping panes covered during the day, at least the hottest part of the day, 11-3, can reduce your need for a cooling aid.

Create A Cross Breeze.

Keeping the air moving will help sweat evaporate off your skin which has a sort of natural chilling effect. Sort of like getting out of a warm shower into the normal air temp and grabbing a towel to take off the chill. To generate a cross breeze open a door or window on opposite sides of your home. I open my front door and then a slider in my living room.

Fans.

Similar to a cross breeze, a waft of air coming off a ceiling fan can help sweat evaporate more quickly. Make sure your ceiling fan is spinning counterclockwise which creates a downdraft. There is a switch that will reverse directions. Floor fans or small fans will give you a comfortable soft breeze as you are reclining or sitting still. I have a tiny fan that sits on my nightstand and cools me as I sleep.

Use Appliances Wisely.

Opt for lighter summer meals that perhaps require no heating. Think salads and sandwiches, cold soups and veggie sticks. Using smaller appliances like your toaster oven or air fryer will throw off much less heat. Dishwashers, refrigerators, dryers and ovens need a lot of energy and generate a lot of heat. While we can't completely avoid them try opting for usage during cooler hours of morning and evening.

LANDSCAPE POLICIES

The Landscape Commission has been working on updating the policy on Alterations to Landscape adopted August 8, 2015. That work is still underway, and NO CHANGES have been made or are pending. Please take a moment to familiarize yourself with the current policy. It can be found on the LBS website. www.lakebarringtonshores.org, select "Forms & Documents" then "Landscape" and choosing v.13 Policy 2 Homeowner Alterations 20150808

LIVING YOUR BEST AT LBS PRESENTS...

WOMEN IN HISTORY

Tuesday, July 8th at 9:30am

This engaging program is a fascinating look at dynamic women in history that have impacted our lives. The women represented were doing big things, secret things, and even dangerous things. Some were well known, others not well known, each marvelously expressing themselves and their passions. History comes alive as **Martina Mathisen** is Annie Oakley who introduces herself with entertaining storytelling to share her life experience. She then introduces your audience to Harriet Tubman and Madame Curie. Without leaving the stage Martina presents Clara Barton and her tales, who then introduces the stories of Anne Sullivan and Florence Nightingale. Once again without leaving the stage, Martina presents Amelia Earhart who joins the presentation with her marvelous and surprising story to then introduce Bessie Coleman. There are so many women who have made a difference in our American experience.

Why these women? Only a few can be chosen and these few were, for a time, all alive on our planet at the same time.

Our **Living Your Best** series begins with coffee, breakfast pastries, and conversation at 9:30am. Program follows at 10:00am in the Ballroom. You must pre-register at the LBS Management Office. Cost is \$5 / person.
