# LIVING YOUR BEST AT LBS PRESENTS...

## TITANIC SURVIVOR - VIOLET JESSOP

A FIRST-PERSON HISTORICAL PORTRAYAL BASED ON THE TRUE STORY  
WRITTEN AND PERFORMED BY LESLIE GODDARD

Wednesday, September 3rd  
Lodge - Ballroom

When the HMHS Britannic sank during World War 1, few survivors emerged with a toothbrush. Violet Jessop, however, had hers, remembering what she had missed after the sinking of the RMS Titanic (the Britannic's identical sister ship in 1912). The only person to survive both sinkings, Jessop tells unforgettable stories of the terrifying disasters and gives a fascinating glimpse at life behind the scenes on the most glamorous luxury liners of their day.

Based on Jessop's memoir, *Titanic Survivor*, published in 1998.

Trained as a historian, Leslie Goddard earned a Ph.D. from Northwestern University specializing in U.S. history, cultural history and women's studies. She also holds both a master's and a bachelor's degree in theater and has worked in the field of museum education for more than fifteen years. Her programs combine this teaching and performing experience with her background as a researcher and historian.

Our **Living Your Best** series begins with coffee, breakfast pastries, and conversation at 9:30am. Program follows at 10:00am in the Ballroom.

You must pre-register at the LBS Management Office.

Cost is \$5 / person.

## LAKE BARRINGTON SHORES *Kindness Grows Here*

In every corner of our community, small acts of kindness are taking root, spreading positivity and strengthening the bonds that hold us together. "Kindness Grows Here" shines a light on these inspiring moments, reminding us all that even the simplest gestures can make a big difference. Whether it's a neighbor helping another, a stranger lending a hand, or an unexpected act of generosity, these stories show that kindness is not just an occasional act, but a way of life at Lake Barrington Shores. Let's celebrate the ways kindness is growing right here, in the heart of our home.

Share your examples of kindness by emailing [info@lbs-hoa.org](mailto:info@lbs-hoa.org).

## Avoid feeding wildlife.

In our modern and globalized world, our actions often affect wildlife in unintended harmful ways and cause habitats to become more fragile. Feeding wildlife is no exception.

**Below are some common negative consequences of feeding wildlife:**

## **Passing of Note - Marguerite Tobin Morris**

Marguerite (Peggy), Morris, a long-time resident of Condo 8, passed away peacefully at home on July 22, 2025. Peggy was 95 years old.

Peggy moved to LBS in 1996 and volunteered as the Landscape Commission Representative for many years, using her immense horticultural knowledge, impeccable judgement and exquisite taste to enhance the beauty of the natural environment and community.

Peggy, working with Roger Bengston, was one of the founders of the LBS Veterans' Memorial Garden. Peggy planned the garden to include many historical martial references and meticulously maintained the garden for many years.

Peggy will be remembered as an invaluable and cherished contributor to the natural environment and community.

A Memorial Mass will be held at 1:00pm on Saturday, August 16<sup>th</sup>, 2025 at St. Francis de Sales Catholic Church, located at 135 S. Buesching Road, Lake Zurich, IL.

## **LAKE FISH AND HOT WEATHER DON'T MIX**

The number of dead fish in the lake is on the rise. Fish mortality rates increase in warmer water due to reduced oxygen levels. Add the stress a fish has when they're hooked and fighting, and the impact is significantly increased. While some fish can fare better than others, when the water's this warm, it's best to lean on the more cautious side and take a break altogether.

Please take a break from fishing during this time when the lake temps are in the mid to upper 80's in order to protect one of our natural resources. The weather will be changing soon and the hiatus should be fairly short.

The high water temperatures are very stressful on a lake. When a lake is cool, it can hold much more dissolved oxygen than when it is hot. When plants and algae die off, the decomposition process consumes dissolved oxygen. When the dissolved oxygen in water drops below 5.0 mg/l, the fisheries are put under great stress. If the dissolved oxygen levels drop below that, even for a few hours, it can result in fish kills. Unfortunately, water temperatures are just too warm to do any chemical treatments of plants. Treating now would cause more decomposition, certainly resulting in significant fish kills.

## LBS MC2 RATE / COMED RATE / VILLAGE OF LAKE BARRINGTON MC2 RATE

The Village of Lake Barrington sent out a letter that everyone in LBS received recently. The Village of Lake Barrington has had a Municipal Aggregation Agreement with MC2 charging 7.25 cents/kWh. Beginning in August, the Village MC2 Rate will exactly match the ComEd rate every month. Everyone who has signed up for the LBS/MC2 program will continue to pay 6.95 cents/kWh (one line item under Supply Charges on your ComEd bill).

The ComEd price to compare is 10.1 cents/kWh. Additionally, there will be a line item called Purchased Electricity Adjustment on the monthly bill with ComEd or the Village Program. This can be up to ½ cent more or ½ cent less every month.

If you are currently with MC2 paying 6.95 cents/kWh, nothing will change. If you are with ComEd currently, or on the Village MC2 Program, the LBS/MC2 Program is the least costly option. Please make sure to check your ComEd bill if you are on autopay and do not actually see your ComEd bill every month.

Any questions, please contact:

## Enhancing Our Green Spaces: Natural Area Maintenance

As residents of Lake Barrington Shores, we are privileged to live among beautiful green spaces that add value to our surroundings, promote biodiversity, and offer peaceful retreats for relaxation and recreation. These areas, often referred to as **natural landscapes**, are more than just aesthetic features—they are vital ecosystems that support a variety of native plants, wildlife, and beneficial environmental processes. Proper **Natural Area Maintenance** (or **Ecological Landscape Management**, as it is sometimes

**Gardeners of the Shores has invited Sarah Voska of Bluestem Ecological Services to talk about the history of the land so you will see how it affects our beautiful property. We hope you will join us for this presentation followed by a short, guided walk along a shoreline path on August 13 at 10:00 am in the Lodge Ballroom. There is no charge, but we do ask you to dress for the weather and wear comfortable shoes, a hat, and sunglasses. (There will be a little surprise sampling at the end of our walk.)**

Natural Area Maintenance is more than just keeping our green spaces tidy. It's about fostering a thriving, sustainable environment that benefits both nature and the community. Through mindful, eco-friendly management practices, we can all contribute to maintaining the natural beauty and ecological health of our shared spaces for years to come. It is important for all of us to understand the role native plantings play in sustaining wildlife and pollinators.

## Thank You!

Thank You to Our Butterfly Garden Volunteers

We would like to extend a heartfelt *thank you* to everyone who contributed their time, energy, and care to help clean up the Helen Horton Butterfly Garden. Volunteers from Gardeners of the Shores, Birds and Butterfly Club and the Conservators along with several other LBS resident volunteers dug out the Showy Goldenrod and some other native plants because of their aggressive tendencies. Our intention is to replace these plants with less aggressive natives and some annuals. Your hard work has made a visible difference, and the garden will once again become a beautiful, welcoming space for pollinators—and people—to enjoy.

Every task you completed helps breathe new life into this special corner of Lake Barrington Shores. The transformation is remarkable, and it wouldn't have been possible without your dedication and teamwork.

Whether you donated supplies, lent a hand during the cleanup, or helped spread the word, we are truly grateful for your support. Your commitment to keeping our green spaces healthy and vibrant makes a lasting impact.

Thank you for making a difference—and for helping the Butterfly Garden bloom again!

*With gratitude,*

Gardeners of the Shores
