Public Service Announcement:

DID YOU KNOW there
are scams to take
your title on your
home?

We've had first hand experience with this -
someone who doesn't own property trying to
list it saying they are the owner!

Scammers can steal your personal information
through data breaches, phishing, or social
engineering. They then forge documents to
illegally transfer the title of your property into
their own name.

Once they control the title, they can take out
loans against your home, attempt to sell it, or
leave you with unexpected debts, all without
your knowledge.

[Learn how to protect your property.](#)

ELECTRIC RATE RENEWAL – MARCH 2026

The current electric rate offered through the association's broker / supplier (AUS/MC2) expires in March 2026. The current rate is 6.95 cents per kWh and the **renewal is a fixed rate of 8.75 cents per kWh for 12 months.** While this is an increase of almost 2 cents, it is 9% less than the current ComEd rate of 9.66 per kWh. If you are currently on this plan, you will receive a notice advising you of the new rate. You do not need to do anything to stay with this rate. If you would like to opt out, instructions will be on the notice on how to do so.

After the renewal is complete, there will be an opportunity for any owners not on the program to sign up.

Did you know?

The Illinois Commerce Commission regulates utilities for the state of IL?

Before switching electric suppliers, do your homework as many may entice you with low rates which are variable and will rise. Visit [Plugin Illinois](#) for more information on suppliers, their rates, and performance ratings.

HOLIDAY DECORATIONS

Reminder: All exterior holiday decorations must be removed by January 31st. Thank you!

DO YOU KNOW WHAT'S DOWN YOUR PIPES?

This photo is of just two weeks worth of items that wrongly were put down the pipes here at Lake Barrington Shores!

The association spends thousands of dollars each year on correcting preventable sewer backups. These are backups caused by products that end up in our sewer system which should not be there. The sanitary system is designed to dispose of water, human waste and toilet paper... nothing else.

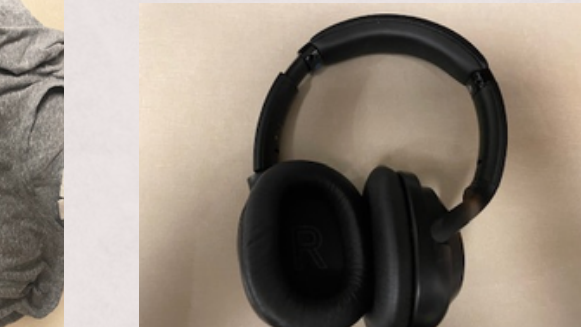

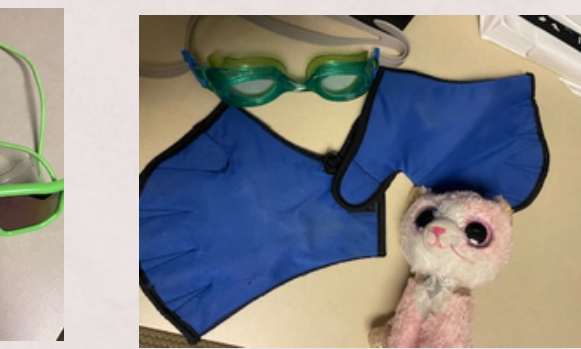

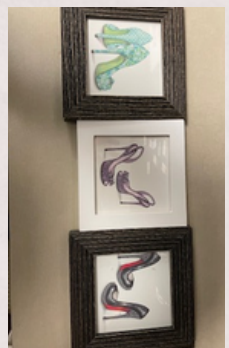

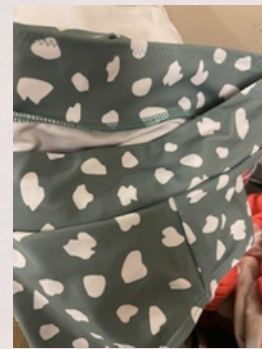

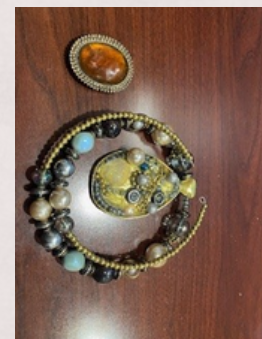

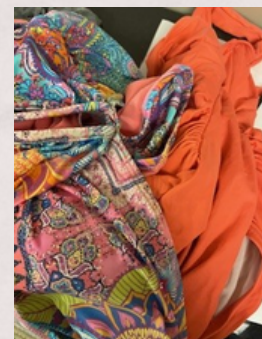

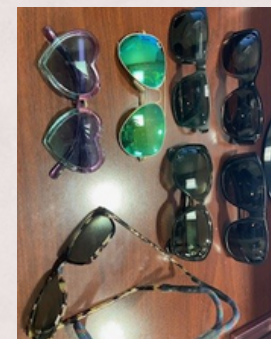

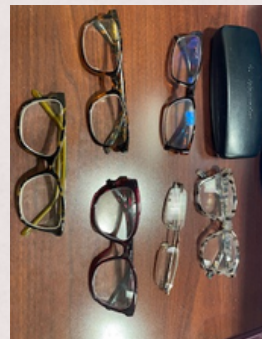

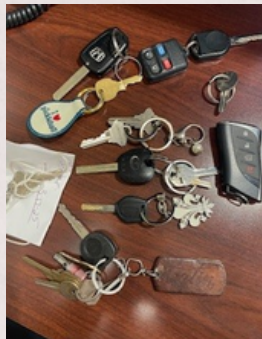

Please do not place items down your drains & toilets including but not limited to: Cat Litter (even the "flushable" type), Coffee Grinds, Corrosive Substances that are either acidic or caustic, Cleaning Wipes (even the "flushable" type), Diapers (infant or adult), Dental Floss, Fats, Oils, or Grease (Butter or Margarine, Cooking Oil, Shortening, Lard), Feminine Hygiene Products, Flammable or Explosive Substances, Hand Towels / Paper Towels / Tissue, Motor Oil, Transmission Fluids, Anti-Freeze or Other Toxic Chemicals, Prescription and Over-the-Counter Medications, Produce Stickers, Solvents, Paints, Turpentine, Nail Polish, Polish Remover

Winter Maintenance & Safety Tips

Lake Barrington Shores SM

Have your furnace inspected for proper function and the filter replaced.

Make sure you have an emergency contact with a key to your home listed with the association.

Make sure smoke alarms and carbon monoxide detectors are installed and working on every floor of your home.

Check batteries on your thermostat, smoke alarms, carbon monoxide detectors, and sump pump battery backup.

Have your fireplace and chimney inspected and cleaned prior to use for the season.

Keep garage doors closed. Attached garages can have water pipes in them. Plus this will also stop cold air from entering home.

Weatherproof your outdoor plumbing. Shut off the supply of water to outdoor spigots and drain them. Rollup your sprinkler hose & store it for the winter.

Block drafts using weather stripping, window film and caulk to control heat loss around windows, doors and baseboards.

Winterize your home when you leave for extended periods.

- Keep temp at 55°
- Turn off water at main and drain lines by opening up faucets
- Flush toilets and add antifreeze

In extreme cold, open kitchen and bathroom cabinet doors to circulate warm air. Have your faucets trickle water. If you have a pipe burst, shut off water at main and contact a plumber and the association.

DANCING ON THE SHORES

We had another successful and fun filled night! About 50 friends and neighbors came out in support and ready to “Get Down” on the dance floor. A wonderful crowd with great attitude.

The dance menu consisted of Mambo Cha cha cha and by special request Swing. We will continue the basic steps and add turns at our next outing.

We are looking forward to our next event on Saturday, March 14th from 7 to 9pm
So grab a partner or come solo and spend the evening dancing with us, no experience necessary.

Don't forget to bring your favorite refreshment.

Please sign up early at dancelbs.com space is limited.

OUR FIRST MEETING OF THE YEAR WILL BE
WEDNESDAY FEB 18, 2026 AT
10:00 AM
IN THE CLUBROOM OF THE LODGE

EVERYONE IS WELCOME - NO DUES OR OBLIGATION!

Please join us for our first meeting of 2026. We will enjoy a report from the brave souls who recently ventured into the -5° temperatures to travel up and down the Fox River in search of eagles! Despite the frigid temperatures they captured amazing photos of eagles and more. Here's a preview of what they'll be sharing . . .

CHARTER CLUB UPDATES

Additionally, we will be screening the award-winning documentary film **The Monarch Ultra**. This short film (54 minutes) explores the parallel stories of the monarch butterfly and relay runners during their 2019 run that traced the migration route of the monarchs. The run covered 2,670 miles, from Peterborough, Ontario Canada to the Sierra Madre Mountains in Mexico. The runners experienced similar challenges as the monarchs face in their annual migration. The film tells the story behind the planning and execution of the Monarch Ultra and how this international relay run connects with environmental activism. The film will be viewed after our regular meeting.

COME JOIN US - REFRESHMENTS WILL BE SERVED!

As spring approaches and we begin to think of warm weather, flowers and **BEAUTIFUL BUTTERFLIES** here's some important information to keep in mind when we plan our summer gardens, whether in the ground or in pots! Both insecticides and herbicides can be harmful to monarchs and other pollinators. Systemic insecticides (those we put in the ground) play a role in pollinator declines worldwide.

PROTECT MONARCHS FROM PESTICIDES Plants absorb systemic insecticides and as plants grow the toxins are distributed throughout the plant tissue including the leaves and nectar. Monarch caterpillars that feed on the leaves of treated plants are poisoned. Before purchasing plants from nurseries and garden centers be sure to ask whether they have been treated with systemic insecticides, especially neonicotinoids which are toxic to pollinators. To read more visit xerces.org/pesticides.

The Bird and Butterfly Club meets on the THIRD WEDNESDAY OF EVERY MONTH at 10:00 am in the Clubroom of the Lodge
Everyone is welcome - no dues or obligation

Are you taking care of an aging parent and overwhelmed?

We built VivaValet because we were living the same reality many adult children face.

Helping aging parents stay in their own homes often has little to do with medical care and everything to do with logistics. Scheduling. Follow ups. Finding trustworthy people. Making sure nothing falls through the cracks. All while carrying the quiet worry that something might go wrong.

We created VivaValet to relieve that pressure.

Our service preserves independence and dignity for older adults, while giving adult children peace of mind and their role as family back.

*We vet every partner, train our team with empathy and respect, and hold ourselves to a simple standard: **if we would not trust this service for our own parents, we will not offer it to yours.***

You are not alone in this.
