HYDRANT FLUSHING

The Public Works staff will be completing our semi-annual hydrant flushing, throughout LBS.

Start: Monday June 29

Complete: Thursday July 2

During this time, you may experience a drop in water pressure or a (brownish) discoloration of your water, both are normal and expected. If you experience discolored water, it is recommended that you open and run all your water fixtures, including your clothes washer, until the water runs clear. If you have a water softener, it is also recommended that you temporarily bypass the unit. Water pressure will return to normal when valves to the hydrants are closed.

We apologize for the inconvenience and appreciate your understanding.

Cat Litter (even the "flushable" type)	Coffee Grinds	Corrosive Substances that are either acidic or caustic
Cleaning Wipes (even the "flushable" type)	Diapers (infant or adult)	Dental Floss
Fats, Oils, or Grease (Butter or Margarine, Cooking Oil, Shortening, Lard)	Feminine Hygiene Products	Food
Flammable or Explosive Substances	Hand Towels / Paper Towels / Tissue	Motor Oil, Transmission Fluids, Anti- Freeze or Other Toxic Chemicals
Prescription and Over-the-Counter Medications	Produce Stickers	Solvents, Paints, Turpentine, Nail Polish, Polish Remover

YOUR LANDSCAPE REPRESENTATIVE'S ROLE & RESPONSIBILITIES

The primary role of your Condo Association's Landscape Representative is to serve as the communication link between homeowners and Board members, the Landscape Commission, and the LBS Landscape Manager.

Your Landscape Representative helps ensure that information flows in both directions:

- The Landscape Commission and Landscape Manager rely on your Representative to bring forward questions, concerns, and suggestions from homeowners and Board members within your Association.
- Homeowners and Board members rely on the Representative to provide updates regarding landscaping activities affecting both the Association and Lake Barrington Shores as a whole.

Responsibilities of Your Landscape Representative

Your Landscape Representative's responsibilities include:

- Attending monthly Landscape Commission meetings.
- Overseeing your Condo Association's annual landscaping budget. (Budget amounts are established by each Association Board and vary among Associations.)
- Working with the Association Board to determine how budgeted landscaping funds are allocated and spent.
- Providing landscaping updates during scheduled Association Board meetings.
- Assisting homeowners by:
 - Directing them to submit a Work Order Request when a landscape maintenance issue requires attention, such as replacing dead or dying perennials or trimming shrubs and tree branches.
 - Advising them to submit a Landscape Variance Application (LVA) when they wish to make changes to landscaping in common areas, such as removing or replacing plantings or adding new perennials, shrubs, or trees.

Important: While your Landscape Representative is available to answer questions and provide guidance, homeowners are responsible for submitting their own Work Order Requests and Landscape Variance Applications.

Know Your Representative

It is important to know who your Landscape Representative is and how to contact them. A complete directory of LBS Landscape Representatives, including preferred contact information, is available [here \(page 7\)](#).

To report a landscaping maintenance issue, fill out a Work Order request online at:

lakebarringtonshores.org

...or fill one out in person at the Management Office.

To submit a landscaping-related question or concern, send an email to:

landscape@lbs-hoa.org

Be sure to "cc" your Condo Association Landscape Representative!

CHARTER CLUB UPDATES

Thank you to everyone who attended the recent LBS concert featuring BB and the Honey and joined in the raffle for the Helen Horton Butterfly Garden Project. We are not at our goal yet, but the success of the raffle at the concert has given us the confidence to move forward with our fall planting.

We would like to extend a special thank you to Terri Landa, a dedicated champion of the Butterfly Garden Project. Terri won over \$450 in the "Split the Pot" raffle and generously chose to donate the entire amount back to our cause in memory of her friend, the late Helen Horton. In addition to this gift, Terri has raised significant awareness for our project at Condo Board and Landscape Commission meetings, inspiring many residents to donate. Thank you, Terri, for your incredible support.

We also want to congratulate Marsha Fitzgibbons for winning a round of golf for four and a restaurant gift certificate to the Lake Barrington Shores Golf Club. Marsha has been a wonderful friend to the Helen Horton Butterfly Garden Project, and these winnings are well deserved. We hope you enjoy the round with your family or friends—wishing you a hole-in-one!

Thank you all for your continued support.

THE CONSERVATORS

Preserving, Protecting and Restoring native areas

Join us in our 35 acre forest preserve on Monday mornings. We'll meet at 9:00 at the Old Barn entrance. Call or text Ann at 847-714-5228 or email her at golda57@hotmail.com for details.

Come and learn about restoration and be a part of this amazing process. There are many ways for you to help. Give us the opportunity to show and guide you.

We continue to eliminate invasive plants such as buckthorn and honeysuckle. Russian olive, privet, barberry, garlic mustard, dames rocket, thistle, yellow and white sweet clover and European alder are also invasive and are removed to give native plants a chance to grow.

We also pick, prepare and sow native seed. Consider joining our team for this rewarding and important work. Seed picking will be spontaneous. Call Ann to get on our list.

Here is a picture of noxious yellow sweet clover that is prevalent in all natural areas throughout LBS. We pull and bag this weed or spray.

LBS THURSDAY MAH JONGG

Please join us if you play MJ and would like to play with a friendly group.

We are a drop in group who meets each Thursday at the Lodge in the card room from 9:30am-12:00pm. Join us on Thursdays or can call Shirley Bossard at 847-363-2907 with questions.

Forest Preserve Conservators

Plant of the Week – Dame's Rocket/Invasive & Phlox/native

Dame's Rocket is an example of a plant that is attractive and even has some valuable traits, but it is so invasive it overwhelms the good. Dame's Rocket was imported from Europe by colonists as early as the 1600's. Besides its pretty pink, white, lavender, or purple flowers, it has a pleasant clove-like aroma. Unlike many invasives, Dame's rocket is attractive to pollinators, particularly at night. Historically, it was a talisman to safeguard mothers in labor, promising well-being and prosperity.

Unfortunately, it spreads quickly through seeds that can fly widely. It pushes out natives and does the same in flowerbeds and shade gardens. Dame's Rocket seeds can wait in the soil for years, emerging when conditions are particularly favorable. This is why eliminating Dames Rocket is one of the top priorities of the Conservators. It flowers earlier than most and must be removed before it puts out its seeds. Fortunately, there is a native substitute.

Phlox looks remarkably similar to Dame's Rocket.

The way to tell the difference between them is that Dame's Rocket has four petals, while Phlox has five. Phlox are favored by pollinators, particularly butterflies, and are more fragrant. Besides the shape of the flowers being similar, they can be found in the same colors, pink, lavender, and purple.
